University of Tulsa
Post Doctoral Opportunities

The University of Tulsa’s Petroleum Engineering Department anticipates two opening for non-tenure track Post-Doctoral Research Associates. One position is in the Tulsa University Fluid Flow Projects/Tulsa University Horizontal Well Artificial Lift Projects (TUFFP/TUHWALP) and the other is in the Tulsa University Fluid Flow Projects/Tulsa University Paraffin Deposition Projects (TUFFP/TUPDP). These are large research consortia that conduct research on multiphase flow in pipes and wellbores as well as paraffin deposition. State-of-the-art experimental test loops and computing facilities are available to conduct research. TUFFP/TUHWALP are supported by numerous major oil and gas companies and government agencies.

Applicants must have Ph.D. degrees in Engineering Science, Petroleum, Chemical or Mechanical Engineering and have a record of conducting and publishing theoretical and/or experimental research on topics such as multiphase flow in pipes, artificial lift and flow assurance. Salaries are competitive and depend on experience.

Send resume and other supporting documents to:

Kelley Friedberg
Senior Project Coordinator, TUFFP/TUPDP/TUHWALP
The University of Tulsa
800 South Tucker Drive
Tulsa, OK 74104
